Δ% is green when current is above the average baseline, red when below, and — when the baseline is zero (e.g. no prior-month history loaded yet). ADS = average daily sales over the last 30 days; AMS = average monthly sales over the prior 3 full months. City tables show the top 10 cities by total MT. Price Fetch = (Incl GST/FED per kg – cost factor per kg) × 32.3242; cost factors in litres are converted at 1 Ltr = 0.915 Kg. Price Fetch columns split Eva / Maan × Oil / Ghee. Bulk Oil averages are shown per maund (× 32.3246); other bulk categories per kg.

All sales for 31 July 2026 — 136 line(s), 36 customers
